K&K Windows Ltd was established in 1995. In this time we have rapidly grown in to one of the regions largest fabricators and installers of Upvc & Aluminium products. All our products are fabricated at our state of the art factory in Craanford, just outside Gorey in Wexford. Our staffs of 40 are committed to best design and quality. We offer an extensive range of framed glazing products providing a cost effective and reliable solution to your needs. Our extensive knowledge of the current building regulations can help you create the perfect window, door or screen.

Our range of Upvc products include casement windows, french windows, casement doors, stable doors, tilt & turn, sliding sash, french doors, patio doors with a full range of ancillary items. Most products available in a range of finishes including, white, cream, golden oak, mahogany woodgrain, black woodgrain, grey, cedar wood, yellow pine, green on white, red on white, & blue on white. All excursions are sourced from Europe's leading Upvc suppliers such as KBE & WMS Halo.

All hardware used by K&K Windows Ltd are sourced from Irelands leading suppliers such as Mila Ltd, Universal Products Ltd, Profile Systems Ltd, Celuplast and Wurth.

All glass used by **K&K Windows Ltd** is sourced from Ireland's largest suppliers, Carey Glass Ltd. With 72 different types of glass in stock K&K can offer a wide range of glass options with workable lead times, K&K are leading the way in insulating glass by offering "Vistatherm Elite" glass in all Products. While most other companies are using Pilkington K, K&K offer a much lower U-Value, I.I, this will comply with the next round of regulations due towards the end of the decade.
